A TRINITY OF EVILS.

Cured by Dr. Kennedy's New Medicine After Other Treatment Had Failed.

Mr. Martin Montgomery, of Silvana, Penn., formerly of Roxbury, N. Y., writing to Dr. David Kennedy, of Kennedy Row, said:

"Your New Medicine, Cal-cura Solvent, is immense. It cured me of liver and kidney troubles, and rheumatism, after a lot of weary dosing with things that did no good. It is a record breaker and no mistake."

As in Mr. Montgomery's case, rheumatism is often, indeed almost always, complicated with kidney and liver trouble. It is because Cal-cura Solvent acts on the kidneys and liver and at the same time expels uric acid from the blood, that it is such a reliable remedy for rheumatism and the attendant disorders. It cures by removing the cause, therefore, the cure is permanent, safe and sure.

Write to the Cal-cura Company, Kennedy Row, Rondout, N. Y., for a free sample bottle.

Remember: Only one Dr. David Kennedy ever lived in Rondout, City of Kingston, N. Y., and be sure you get his new and latest medicine, which is sold only in \$1.00 bottles.

FADING SPELLS.

THEY INDICATE A DANGEROUS CONDITION OF HEALTH.

Women so Afflicted are Usually the Victims of a Weakness Which May Be Unsuspected.

Fainting spells and a tendency to faint away upon slight excitement indicate a condition of health that should be attended to without delay. The great majority of those so afflicted are women and the cause can generally be traced to female weakness, often of long standing and frequently unsuspected. "My health had become all run down," says Miss Catherine J. Ball, of No. 375 Bates avenue, St. Paul, Minn., "and I had frequent fainting spells. I was pale and sallow and suffered regularly from a terrible headache and a soreness in my right side below the waist. I had no strength, the slightest exertion tired me and made me short of breath. My stomach troubled me at times and I never felt as a well person ought to feel. I doctored for three months but the physicians did not help me much and it was not until I took Dr. Williams' Pink Pills that I began to improve. In less than a week after beginning with these pills I could see a change for the better and in a short time I was well. My complexion became pure and healthy, the soreness disappeared, I am no longer troubled with faintness and I feel perfectly well and strong."

Dr. Williams' Pink Pills for Pale People cure cases like that because they get to the root of the disease. Not only have they cured hundreds of cases similar to Miss Ball's but they have proven themselves to be an unfailing specific for all diseases arising from impure or impoverished blood and shattered nerves—two fruitful causes of nearly all of the ills to which humankind is heir. They are an unfailing specific for locomotor ataxia, partial paralysis, St. Vitus' dance, sciatica, neuralgia, rheumatism, nervous headache, after-effects of the grip, palpitation of the heart, pale and sallow complexion and all forms of weakness either in male or female.

Dr. Williams' Pink Pills for Pale People are sold only in boxes at fifty cents a box or six boxes for two dollars and a half, and may be had of all druggists or direct by mail from Dr. Williams' Medicine Co., Schenectady, N. Y. The genuine are never sold by the dozen or hundred.

HINSDALE, N. H.

Grammar School Commencement.

The town hall was well filled last week Thursday evening, by interested friends, to witness the graduating exercises of the class of 1903, Hinsdale Grammar school.

There were 19 graduates, namely, Robert Archibald, Nellie S. Boon, Blanche N. Bronson, Carleton A. Bronson, Lida Higgins, Harold S. Martin, Rose Mead, Robert H. Metcalf, Sonja E. O'Connor, Susan Packard, Christina Robertson, Dora M. Royce, Edna M. Stevenson, Roy D. Taylor, Madelon M. Temple, Ruth I. Towne, Alfred Walker, Roland H. Westhorpe, and Adila Wright. The program was an excellent one, and the young pupils rendered their parts in a manner that would have done credit to much more mature years. The exercises opened with a procession, with music by Mead's orchestra, who furnished the music for the exercises. The salutatory address was by Miss Blanche Bronson, with an essay on the class motto, "He Conquers Who Endures," which showed careful preparation and was gracefully given. Miss Nellie Boon recited, with considerable dramatic effect, "The Passing of Hawatha." A violin solo by Carleton Bronson, and an oratorio, "The Memorial Service," which was given by the class, followed. The class historian, Miss Susan Packard, cleverly portrayed the domes, wares and otherwise, of the class during the four years just closed. Mr. Taylor took his audience on an extended and luxurious trip to California, which all greatly enjoyed. The future of the class members was wistfully pictured by Alfred Walker, and the requests in the class were by Miss Ruth Towne were evidently happy hits to the initiated. Miss Madelon Temple pleadingly rendered a paper class, which was very able and comprehensive historical exercise, Miss Lane, who has had charge of the school, was the recipient from the class of a handsome jewel case. After the presentation of diplomas by Miss Lane a recessional hymn closed the exercises, which had won hearty applause throughout. A short reception was held by the graduates in the ante-room, many remaining to offer congratulations.

It is a matter of regret to many that Miss Lane's connection with the school is closed, she having accepted a more desirable position in Northampton, Mass., where she will go at the beginning of the school year in September.

Five per cent. mortgages, well secured, and made by good borrowers can be depended upon for the interest as well as for the principal when due.

On the other hand, six per cent. mortgages are at this time being made only upon questionable security or the borrowers are in poor credit.

Therefore, in our opinion, five per cent. mortgages are most decidedly to be preferred to six per cent. mortgages because they are **Surer as to interest, Safer as to principal**

NEGRO BURNED TO DEATH.

He Confessed That He Killed Rev. E. A. Bishop's Daughter Near Wilmington, Del.

George F. White, a negro, was burned to death by a mob near Wilmington, Del., Monday night. Last week Monday he assaulted and fatally injured Helen S. Bishop, 17 daughter of Rev. E. A. Bishop, principal of the Ferris Industrial school, and a former principal of the Vermont Methodist Seminary at Montpelier. A mob of 2000 men and boys led by a stranger who is said to be a Virginian, gathered on the outskirts of the city and marched to the workhouse, where the prisoner was confined. The warden and his guards were armed and they fired one or two volleys into the crowd, wounding three men and a boy. It was evident however, that the warden did not wish to slaughter the mob in the prison corridor, and after the doors had been battered down he held them at bay for a short time with streams of water from the fire hose. Finally a general rush was made and the guards were beaten down. White was found quickly, cowering in his cell and begging for mercy. He was dragged from the prison and, with torches to lead the way, 4000 persons followed to the spot where the murder was committed. White was given a last chance to speak and confessed his guilt. He was chained to a post surrounded by dry underbrush soaked with oil. He suffered intense agony when the fire was started, but soon fainted and the body hung limp at the stake. Shots were fired into the body before it was consumed by the fire.

The water is being pumped from the one famous marble quarries of Middlebury and they will probably be opened again. These quarries were opened 20 years ago and were owned by the Addison County Marble Company. About 20 years ago the spur track which ran three miles to the quarries from Belvidere on the Rutland railroad was torn up and the quarries filled with water. Sculptors say this quarry has produced some of the finest statuary marble in America, both of the white and flesh-tint varieties.
